Notice of possible quorum of board

Listen to and Discuss Arguments. No Board action will be taken.

This Notice is made not for a regular meeting of the District Board but rather for a County Board of Adjustment hearing in which the Lake District is interested. A quorum of the District Board may be present. Some may attend online via the County's Zoom capabilities. This notice is made with respect to Wisconsin's open meeting law which could be viewed as recommending giving of notice in these circumstances even though the District considers the event not to be a meeting of the District Board. Apology is made to members of the public who are understandably confused by this notice.
